

A TASTE OF

SQUID MEAT

Squids,

First off your mag trashes here in N.Y.C. I just thought that you might like to here the latest on the local skate scene. We mostly skate ditches and halfers, but on weekends we head down to public 58 in NYC for some smoking freestyle sessions putting away those tunes by the Delinquents and bands like D.O.A. really get a stoking here, when we totally shred these streets. But like everything, something always sucks, here in the Apple there are many "worms" you know real dicks, that can't handle a skate session, and end up ruining it for the rest of us. I hope you guys will publish this so those maggots might read it and I hope some other skaters that skate the local 58 will write you dudes and let them fucking asshole who's boss and who's a dick! Yelano-"Staggs" watch out, the Squidman are out to get you! Now can I have some Squid Meat, heres the stamps. Hurry.

"Soap"

p.s. The scratch and sniff
banana man will be at the
bkwik! Steggy! O-tay

Squids,

Heres some pictures of our pool. Its pretty hot. I don't know how deep it is and I don't care. Just about all the time we have to chase out BMXers and cops. The city is going to board it up and start to build the house up again so when they do, we will collect all of thier plywood for a ramp which has been planned but nothing has been done yet. When we get it, I'll send more pics.

a fellow squid.

Send a stamp and at least
a letter or picture for
each issue.

Squid Meat is overdue as usual but thats tough. When you send
for a issue please remember that this isn't Thrasher or TWS
so don't expect it monthly. I will however promise that it
will be put out more regularly than it has been.

I would like to thank all of the above for sending something
to help out, it is appreciated.

-MIKE-

Phrank. (thanks)

CLOCKWISE FROM RIGHT: Mike Bennett leaps into a boneless one on familiar turf, Squid Ramp. John Gibson wrangles this silhouette andrecht at Brett's Ramp while on the Thrasher Summer Tour. Chip Jones and Jeff Kendallripping in downtown Fairborn at the Squid Team Demo.

SCENE UPDATE

Here's what happened, happening or going to happen in and around the Dayton area. A new halfpipe, the Cabitcer ramp at squidget Mark Heinzman's house in Fairborn. Its 4ft high 8ft wide 12ft flat, fun to skate when it's real cold out. The Squid Team finally pulled off a demo last Sept. Chip, Jeff and Jade came down from Indy to help out as well as Joe and Marty from Middtown. Lots of stoked people showed wanting to know "what that skateboard track is for?" Marty Jimenez leaves Ohio and goes out to Cal. with Roskopp and Ridge, they picked up John Gibson in Texas and hit the ramp spots on the way. Rumor is that they are worshipped in some part of Ariz. and were signing autographs. A new ramp is being planned for this summer in Springboro. Buddy Carr and Todd Bray come thru and decide that it is time to have a channel ramp in Dayton. We agree. Financial supporters for this mega structure are Mrs. and Mr. Bray. Don't let us down! The pheasant ramp in Middletown is still alive but needs a new layer of wood badly. MESS 84 is being put together, the 1st contest will be here in Squidville. Freestyle will be added to some of this year's contests so start flippin'. Contact Britt Parrot at SKATENN for complete info on the hottest series east of the MISSISSIPPI. Add a new member to the squids, Tom LaPlante transfers to Fairborn from St. Marcus Texas only to find plenty of skate action. The squids will be traveling around the country in 30 days (not in a balloon) this summer so look out we might end up at your local Greyhound station. More rumors, Bill "Mr. Hate" Danforth may come to Fairborn next fall to go to school, let's hope this one's true. The "cool thing to do" now is to move to Fairborn or Dayton and become a Squid so forget California! Bands are actually playing in Dayton again after a long brake. 1001 Club has been hosting the shows with appearances from the original Toxic Reasons and Ragged Bags. Speaking of local music scene, Greg Spence is adding to the cause by putting a compilation tape together and a fanzine. Look for more info on how to get both in further issues of S.M. Well that about wraps it up for now, don't expect anything or anyone on time.

PUNK ROCKIN' AT AGE 14

by MIKE BENNETT

The Toxic Reasons and Lead Pencil were scheduled to play at the 1001 Club. I was a bit wary to enter because it was my first show and you had to be nineteen to get in. I stood with money in hand anxiously waiting for the question about my age from the doorman. He seemed to bend real low (as if to question my unusual height for a 19 year old). After this he remarked that I looked young but I told him I wasn't. I gave him my money and had to ask for my change. Finally, I was in and was receiving some wild looks. After about an hour Lead Pencil began to play. The only thing to say about this group is there extreme drumming abilities. Instead of using conventional drums they had to be real punkrockers and use lead pipes. Mike Hill immediatly decided that if we took the metal coping off the ramp we could form a band. About the onlycool thing they did was give out free "Jones Aid" and finish playing. After another delay the Toxics began to play. The place immediately came alive as big Ed hit the stage. With somecoaxing I proceeded onto the floor and found myself amongst a bunch of sweaty, flailing giants. I noticed one kid from the high school who seemed to be playing pinball off all the other people. The P.A. broke and everyone was bummed but the show went on with limited vocals. Even though the only song I knew was War Hero, I think the show was really great and the Toxics ripped heavily. I had made it through my first show and was ready for the next one.
